ONTARIO**
Program funded in part by the Government of Canada

OSEB Directory 2009 / 2010

Welcome to the 9th edition of the Business Directory for graduates of the Ontario Self-Employment Benefit (OSEB) program who continue to own and operate active businesses in the Peterborough and Northumberland areas.

The OSEB program is an exciting initiative of the Government of Ontario's Ministry of Training, Colleges and Universities (MTCU), and is delivered in Northumberland and Peterborough by the Northumberland Community Futures Development Corporation (NCFDC).

The primary objective of the program is to assist individuals in creating jobs for themselves (and potentially others) through self-employment via the establishment of their own business.

The program goal is business success and client self-sufficiency. To enable this, in conjunction with MTCU financial assistance during the start-up phase, NCFDC provides a Business Plan course (resulting in creation of a customized/comprehensive business plan and yearlong cash-flow forecast) as well as ongoing business advisory services and marketing support (including listing in the annual OSEB Business Directory).

This publication is designed as a resource to help the listed businesses connect for networking and cross-promotional purposes, and it may also serve as a reference guide for use by the community at large. We encourage you to consult this directory when selecting businesses to provide products or services you require. In doing so, you support local economic development and business growth by investing in the talents, skills and resources of the hard working entrepreneurs who make up an integral part of our community.

Please contact the listed businesses directly to inquire about their products, services and prices.

For further information on the OSEB program and the other services offered by Northumberland Community Futures Development Corporation please visit our website at www.northumberlandcfdc.ca, or contact our offices directly:
